CORE SKILLS

- React, TypeScript, JavaScript
- Java, Spring Boot, Node.js, NestJS
- REST APIs, authentication, RBAC
- PostgreSQL, MySQL, Prisma, Firebase
- Docker, Linux, Git, GitHub
- Jest, Playwright, debugging and testing

LANGUAGES

- Greek - Native
- English - C2 Proficiency

CERTIFICATIONS

- ESB Certificate of Proficiency in English (C2)
- ECDL - Word & Excel
- Univators 2.0: Machine Learning & Artificial Intelligence, Code.Hub (18 hours, 2025)

PROFESSIONAL SUMMARY

Digital Systems undergraduate entering the final year at the University of Thessaly, seeking an internship or entry-level role as a Junior Full-Stack Developer or Full-Stack Software Engineer. Hands-on experience building and deploying end-to-end applications with React, TypeScript, Java, NestJS, Spring Boot, PostgreSQL, REST APIs, Docker, and cloud or self-hosted infrastructure. Projects include authentication, role-based access, real-time features, automation, testing, and production deployments. Completed military service in the Hellenic Special Forces.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Vite, Next.js

Backend: Java, Spring Boot, Node.js, NestJS, REST APIs, Socket.IO, PHP, Python

Data & Storage: PostgreSQL, MySQL, SQL, Prisma, Firebase / Firestore

DevOps & Cloud: Docker, Linux, Git, GitHub, Cloudflare Tunnels, Vercel, Microsoft Azure

Testing & Tooling: Jest, Playwright, React Query, Zustand, n8n, Wireshark, Power BI, MATLAB

PROJECTS

Municipal Police Management Platform | *React, TypeScript, Tauri, NestJS, Prisma, PostgreSQL, Socket.IO, Docker*

- Built a desktop and API platform with JWT authentication, role-based access, ticket lifecycle management, vehicle records, audit history, real-time updates, and PDF reporting.
- Implemented Greek/Greeklish fuzzy search and automated tests with Jest and Playwright; deployed the API through Cloudflare Tunnel.

ShiftFlow | *React, TypeScript, Firebase, Zustand, dnd-kit, Vercel*

- Developed a production shift-planning app with rule-based schedule generation, drag-and-drop editing, rest-day constraints, history, analytics, templates, and exports.

HomeLabShare | *Next.js, TypeScript, Prisma, PostgreSQL, Docker, Cloudflare*

- Created a self-hosted file-sharing platform with authentication, per-user quotas, uploads, share links, favourites, invite codes, and administration tools.

HomeOps | *React, Node.js, Docker, Linux, Cloudflare*

- Building a homelab operations dashboard for services, containers, networks, tunnels, backups, alerts, incidents, history, and dependency intelligence.

EDUCATION

University of Thessaly - BSc in Digital Systems | Larisa, Greece | 2022 - Present

Entering final year; focus on software engineering, web development, databases, artificial intelligence, networks, and digital systems.

ADDITIONAL EXPERIENCE

Hellenic Armed Forces - Special Forces | 19/07/2022 - 19/03/2023 | Completed Military Service

- Strengthened discipline, teamwork, reliability, adaptability, and decision-making under pressure.

Gas Station Employee

- Worked accurately in a fast-paced customer-facing environment while following operational procedures and maintaining consistent service.
