GitHub: github.com/spandreou

CORE SKILLS

- Python, Java, C, SQL
- HTML, CSS, JavaScript, PHP , TypeScript , TailWind , React
- MySQL , Postgresql, Git, GitHub
- Wireshark, MATLAB
- Microsoft Azure, Power BI
- AI-Assisted Development

LANGUAGES

- Greek - Native
- English - C2 Proficiency

CERTIFICATIONS

- Certificate of Proficiency in English (C2), ESB
- Word & Excel Diploma
- Univators 2.0: Skilling Future Digital Innovators - Certificate of Completion (Machine Learning & Artificial Intelligence, 18 hours, Code.Hub, 2025)

PROFESSIONAL SUMMARY

Third-year Digital Systems undergraduate at the University of Thessaly, seeking an internship with strong prospects for long-term employment as a Junior Developer or Systems Engineer. Military obligations completed through service in the Hellenic Special Forces, bringing discipline, reliability, adaptability, and the ability to perform effectively under pressure. Strong interest in software development, web technologies, and IT systems, with hands-on familiarity in programming, databases, and modern AI-assisted development workflows for faster problem-solving and productivity.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, SQL, HTML, CSS, JavaScript, PHP, TypeScript , TailWind , React

Web Development: Front-end and back-end fundamentals, responsive web development

Databases: MySQL, Postgresql

Tools & Platforms: Git, GitHub, Wireshark, MATLAB, Microsoft Azure, Power BI, Microsoft Office

AI-Assisted Development: ChatGPT, Gemini, Claude, Codex for coding productivity, debugging, ideation, and problem-solving

EDUCATION

University of Thessaly - BSc in Digital Systems

Larisa, Greece | 2022 - Present

- Third-year undergraduate student
- Focus on software development, web technologies, databases, and digital systems

EXPERIENCE

Hellenic Armed Forces - Special Forces

Completed Military Service

- Operated effectively in high-pressure and demanding environments requiring discipline, precision, and rapid decision-making
- Strengthened teamwork, responsibility, and execution under strict procedures and timelines
- Developed resilience, adaptability, and reliability in mission-critical situations

Gas Station Employee

- Built strong customer service and communication skills through daily interaction with customers
- Managed responsibilities accurately in a fast-paced working environment
- Demonstrated consistency, reliability, and attention to operational procedures
